

Self Leveling Boarding Stairs

Designed and Manufactured in the USA

The perfect option when the use of a stern gangway/passerelle is not possible.

Simple, safe, port or starboard boarding solution.

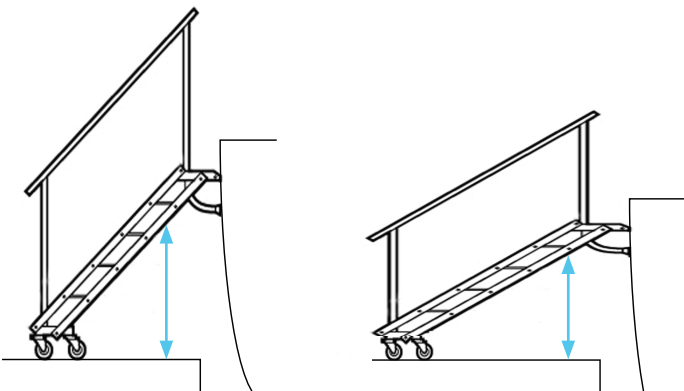

- Constructed in lightweight, high-strength anodised Aluminium and Stainless Steel for harsh marine environments
- Patented Quick Release System
- Features 'No pinch' design
- 4 x 316 Stainless steel casters- allowing free movement with tide
- Unique storable design – folds for easy storage
- Supplied with standard non-slip step finish
- Custom 'Flexiteak' step options available

standard non-slip step finish shown

Adjusts to tidal state

Unique wheel system provides smooth autonomous operation and leveling as the water level rises and falls.

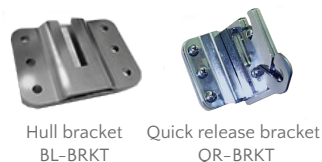

Custom step finishes

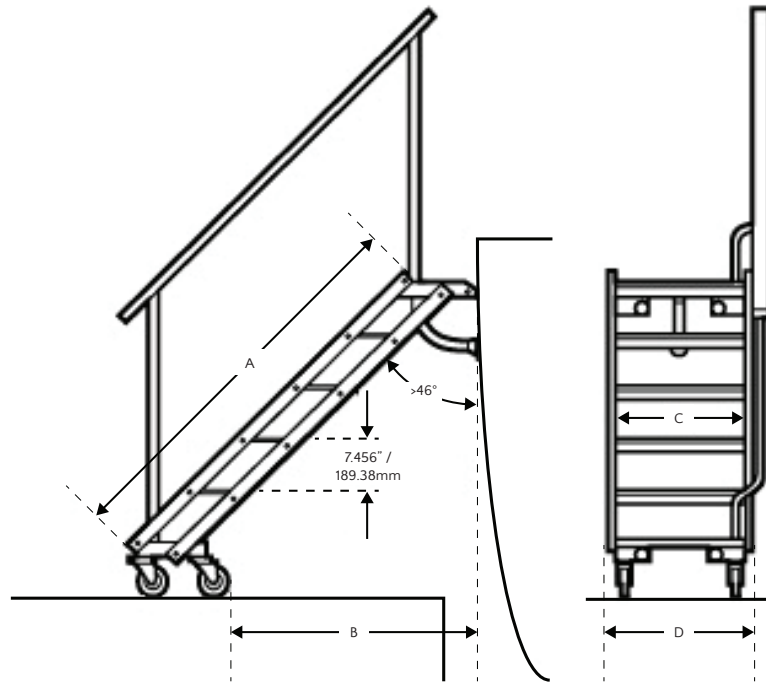

Quick release system

Stairs are supplied with 1 pair of hull brackets and 1 pair of quick release brackets.

Self Leveling Boarding Stairs

Designed and Manufactured in the USA
